

Pressure Tank made from Stainless Steel

Characteristics

- Different sizes
- Easy to fill without tools
- Easy to clean
- Easy to transport due to low weight

Fields of Application

- For supply with adhesive, softening and cleaning media, for paints and other liquids

Description

High-quality pressure tank made from stainless steel for media supply of application systems up to 6 bar. Depending on the customer's requirement different sizes are available, if necessary, also as food-safe version.

Equipment Features

- Vulkanised bottom (d = 216, 237mm) or case made from stainless steel (d = 237 – 550 mm) to protect the floor
- Handle on top or two holes in the top notch
- Easy to fill through large, oval openings or screw-cap
- Inside locking cover with safety valve, which cannot be opened when the container is under pressure.
- Alternative connections with quick shut-off valves or reducers

Technical Data

Diametre D in mm	Volume in litre	Height H in mm	Operating pressure in bar	Weight in kg
216	5.7 – 19.5	248 – 626	6	2.2 – 4.2
237	10.0 – 25.0	329 – 676	6	3.8 – 5.9
278	10.0 – 30.0	277 – 613	6	5.1 – 8.5
363	30.0 – 100.0	404 – 1,094	2 – 6	9.2 – 22.3
395	30.0 – 100.0	365 – 946	2 – 6	10.2 – 18.6
550	100.0 – 225.0	625 – 1,162	1 – 2	21.8 – 33.0
216	19.5	626	6	4.2
363	50.00 - 100.00	600 – 1,094	6	13.4 – 22.3
550	100.0 – 225.0	625 – 1,162	4	21.8 – 33.0
